Notes on this School Accountability Report Card

- The data presented in this report card are for public, state and federal accountability purposes.
- Student performance on the Wisconsin Student Assessment System (WSAS) is the foundation of this report. WSAS data includes both Wisconsin Knowledge and Concepts Examinations (WKCE) and Wisconsin Alternate Assessment for Students with Disabilities (WAA-SwD).
- Starting in 2011-12, schools are held to a higher college and career readiness proficiency benchmark by aligning the cut scores of the WKCE to those of the National Assessment of Educational Progress (NAEP). These higher cut scores have been retroactively applied to show trends. The higher cut scores only apply to WKCE Reading and Mathematics scores, not the WAA-SwD, at this time.
- Comparisons to other reports are not appropriate because the retroactive adjustment to align WKCE results with NAEP means that the count and percent of students scoring at each performance level will not agree. State data to compare against the results in this report card is available here:
<http://dpi.wi.gov/oea/acct/accountability.html>
- Some supplemental data that are not used for accountability calculations are presented for informational purposes in order to provide context. Additional data on student performance are available here: <http://dpi.wi.gov/sig/index.html>
- To protect student privacy, data for groups of fewer than 20 students are replaced by asterisks.
- NA is used throughout when data are Not Applicable. For example, if a school does not graduate students then graduation data will be NA.
- The analytical processes used in this report card are described in the Technical Guide and Interpretive Guide: <http://dpi.wi.gov/oea/acct/accountability.html>
- In the future, the school report card will be web-based and will allow readers to click on features for more supplementary data.
- The Wisconsin Department of Public Instruction is collecting feedback on these preliminary report cards. Please complete the survey: <http://dpi.wi.gov/oea/acct/accountability.html>

Notes

- Details on student achievement calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- Student achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students.
- This report shows student performance in mathematics and reading in English.
- Points displayed in the tables above are weighted so that higher performance levels, larger numbers of students, and more recent years contribute more.
- Performance levels have been retroactively adjusted to align WKCE results (but not WAA-SwD) with National Assessment of Educational Progress (NAEP). Count and percent of students scoring at each performance level will not agree with previously reported results.

Technical Report Card | 2011-12 | Student Growth

Student Growth

Growing Toward a Higher Level:

The bold/green cells show the count and percent of students who are on a trajectory to gain at least one performance level over the next three years. These students result in a higher Student Growth score for the school. Students maintaining the advanced level also result in a higher score.

Declining Below Proficient:

The italicized/red cells show the count and percent of students who are on a trajectory to decline to the Minimal Performance or Basic level within the next year. These students result in a lower Student Growth score for the school.

Notes:

- Details on student achievement calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- Student growth is calculated separately for reading and mathematics.
- Student growth can only be calculated for students who take the Wisconsin Knowledge and Concepts Examinations (WKCE) in two consecutive years.
- Student growth does not include students who take the Wisconsin Alternate Assessment for Students with Disabilities (WAA-SwD) because that assessment does not allow for similar growth calculations.
- Performance levels have been retroactively adjusted to align WKCE Reading and Mathematics results with college and career readiness benchmarks based on the National Assessment of Educational Progress (NAEP) performance levels.

Total Score: NA/NA

Reading Growth Score: NA/NA

Reading Growth Score is based on the NA students tested in fall 2010 with data for growth to fall 2011.

Notes

- Data in this table are based on students tested in fall 2010 with data for growth to fall 2011.
- “Growing Toward Higher Level” means students starting below Advanced and growing on a trajectory toward a higher level over the next three years. They are represented in the bold/green cells in the tables on pages four and five.
- “Declining Below Proficient” means students starting at or above Proficient and on a trajectory to decline below Proficient within the next year. They are represented in the italicized/red cells in the tables on pages four and five.
- Growing Toward Higher Level Count and Declining Below Proficient Count will not sum to Students with Growth Data because students who are not growing toward higher level or declining below proficient are not shown.

Notes

- Details on closing gaps calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- "3-Yr Average Students" is the average number of enrolled students over a three-year period ending in the indicated year.
- "Achievement Points" is the number of points a group would earn if it had a score calculated in the same way as Achievement, detailed on page two, which uses three years of data. Scores are weighted by enrollment, and more recent years contribute more heavily to a score.
- See "About Supergroups" on page seven for a definition and descriptions of supergroups.
- Change and gap values may differ slightly from values calculated by subtracting within the table due to rounding.

Notes

- Closing Graduation Gaps is based on the four-year cohort graduation rate only. In the future Closing Graduation Gaps will be based on both four-year and six-year cohort graduation rate when six-year graduation rate becomes available.
- Closing Graduation Gaps is based on graduation data from the prior year because current year data is not yet available. For example, 2011-12 report cards use 2009-10 and 2010-11 graduation data.
- "Students" is the number of students in the four-year graduation cohort.
- "Graduation Rate" is the four-year cohort graduation rate.
- Only four-year and five-year cohort graduation rates are available for 2011-12 accountability. Six-year cohort rate will replace five-year cohort rate for 2012-13 accountability and will be used going forward.

About Supergroups

Supergroups are a way to look at closing gaps among groups of students that would ordinarily be too small to include.

A supergroup is made up of all the students that belong to any of the groups in the supergroup:

- "All 3" Supergroup: Includes students with disabilities and/or economically disadvantaged and/or limited English proficient students.
- "SwD-ECD" Supergroup: Includes students with disabilities and/or economically disadvantaged students.
- "SwD-LEP" Supergroup: Includes students with disabilities and/or limited English proficient students.
- "ECD-LEP" Supergroup: Includes economically disadvantaged and/or limited English proficient students.

A supergroup is used to evaluate Closing Gaps only when there are less than 20 students in each of the individual groups within the supergroup, but more than 20 students in the supergroup. For example, if a school had less than 20 students with disabilities and less than 20 economically disadvantaged students, but more than 20 students when those groups are combined, the "SwD-ECD" supergroup would be used to evaluate Closing Gaps.

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- Schools that graduate students earn a Graduation Score. Schools that do not graduate students (elementary, middle) earn an Attendance Score.
- Expected maximum dropout rate and expected maximum absenteeism rate were set based on an analysis of recent statewide data that determined a cut point to focus on schools contributing heavily to lowering Wisconsin's overall performance.
- Only schools with a 12th grade will earn an ACT Participation and Performance score.
- ACT Reading, English, Mathematics, and Science counts and percents are those students that met ACT college readiness benchmarks.

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- 3rd Grade Reading and 8th Grade Mathematics Scores are determined in the same way as for Student Achievement on page two except that if there are fewer than 20 students in the most recent year then the most recent two years of data are combined so that the cell size requirement is met.
- Student achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students.
- Points displayed in the tables above are weighted so that higher performance levels, larger numbers of students, and more recent years contribute more.
- Performance levels have been retroactively adjusted to align WKCE results with National Assessment of Educational Progress (NAEP). Count and percent of students scoring at each performance level will not agree with previously reported results.

Student Engagement Indicators

Goals Met: 3/3

Expectation	Goal	School Rate	Points Deducted
Dropout Rate	6% or Less	5.7%	0
Absenteeism Rate	13% or Less	5%	0
Test Participation Rate (For Lowest Group)	95% or Greater	99%	0

Student Engagement Indicators Data

The lowest group test participation rate in the table below is used to determine the result of the Lowest Group Test Participation Rate Student Engagement Indicators. For a school to meet the Test Participation Rate expectation, the participation rate for all of its student groups must be 95% or higher. Group performance for Absenteeism Rate and Dropout Rate is provided for informational purposes only and is not used to determine the Student Engagement Indicators results used in the accountability index.

Group	Test Participation Rate		Absenteeism Rate	Dropout Rate
	Reading Rate	Mathematics Rate		
American Indian or Alaskan Native	*	*	*	*
Asian or Pacific Islander	100%	100%	2.5%	0.1%
Black not Hispanic	100%	100%	6.3%	1.6%

Economically Disadvantaged	99%	99.5%	12.1%	1.9%
Limited English Proficient	*	*	10.9%	3.4%

Notes

- Details on Student Engagement Indicators calculations can be found at: <http://dpi.wi.gov/oea/acct/accountability.html>
- All schools are expected to meet Student Engagement Indicators on these three areas. Overall school accountability score is reduced by five points for each goal that is not met.
- Test Participation Rate (For Lowest Group) rate is rounded up to the nearest whole number before comparison with goal. Dropout Rate and Absenteeism Rate are not rounded.

State Assessment Results

The data below are provided for informational purposes only but are not used to calculate a school's state accountability index score. The data below include both WKCE (Wisconsin Knowledge and Concepts Examinations) and WAA-SwD (Wisconsin Alternate Assessment for Students with Disabilities).

Performance levels have been retroactively adjusted to align WKCE Reading and Mathematics results with college and career readiness benchmarks based on the National Assessment of Educational Progress (NAEP) performance levels. Performance levels for WAA-SwD have not been adjusted. Count and percent of students scoring at each performance level will not agree with previously reported results.

Annual Measurable Objectives

The U.S. Department of Education requires Annual Measurable Objectives (AMOs) be set for all students and student groups for reading proficiency, mathematics proficiency, and high school graduation. The data below are provided for informational purposes only but are not used to calculate a school's state accountability index score.

Notes

- Under Determination, "Yes-CI" means the group met its AMO target within a 95 percent confidence interval.

Notes

- The graduation rate goal for the All Students group and each student group is 85 percent.
- Graduation Rate Annual Measurable Objective (AMO) is based on three goals: 1) Four-year cohort graduation rate goal; 2) Five-year cohort graduation rate goal; and 3) Four-year cohort graduation rate improvement goal. If any one of these goals is met then the AMO is met.
- Only four-year and five-year cohort graduation rates are available for 2011-12 accountability. Six-year cohort rate will replace five-year cohort rate for 2012-13 accountability and will be used going forward.
